

# Workplace Specific Safety Orientation Checklist

## **Instructions**

All personnel must receive workplace-specific safety training before starting research or other work in a laboratory. The Safety Coordinator/Supervisor needs to discuss the applicable items on this sheet. The Emergency Procedures section **applies to everyone** and completed separately for each building work is performed in.

General hazard safety trainings, administered by Caltech’s Safety Office, may be required based on the work hazards.

**Lab Directed / Lab-Specific Safety Training**

Caltech labs are required to administer and document training for personnel on the specific hazards of the workplace. The list below are potential topics for lab directed training and can be used to document training provided. The Safety Office is available to assist with these trainings. Send an inquiry to [safety.training@caltech.edu](mailto:safety.training@caltech.edu) or call x6727.
