Workplace Specific Safety Orientation Checklist for Incoming Researchers

The Caltech Academic Divisions are concerned that all researchers know, understand, and observe good safety practices and procedures. For your benefit and safety, we require that you complete this safety checklist together with the Safety Coordinator in your laboratory.

This must be done immediately!

Instructions:

Please discuss the items on this sheet with the Safety Coordinator in your laboratory or with your mentor. Check off the items or mark N/A if they do not apply to your research environment. (Note: The Emergency Procedures section applies to all researchers).

Any researcher must receive work area specific safety training before starting a project in a laboratory. Safety Training should:

- Discuss Emergency procedures.
- Discuss available safety related resources including www.safety.caltech.edu.
- Discuss lab specific hazards which may include processes, equipment, chemicals, and/or contact with animals.

The researcher must provide the name of the Group's Safety Coordinator or mentor, sign the form, and return the completed form to the appropriate Division Office.
