PROPER USE OF GLOVES

All employees using gloves must observe the following precautions:

- Disposable gloves should not be re-used. Never wash/decontaminate disposable gloves for re-use.
- Inspect and replace gloves if torn, punctured, or contaminated.
- Avoid touching personal items such as telephones, pens, and electronic devices while wearing gloves. Telephones should never be answered while wearing gloves.
- Remove gloves in such a way to avoid contact with the exterior of the glove, as pictured below.

ALWAYS WASH YOUR HANDS AFTER REMOVING DISPOSABLE GLOVES, EACH TIME, WITH SOAP AND WATER FOR AT LEAST 20 SECONDS
