Environmental Health & Safety

ASSESS ■ TRAIN ■ INSPECT ■ RESPOND

Environmental Health & Safety Core Competencies and Regulatory Compliance Structure

WHAT DOES EH&S DO?

We provide a unique solution for each problem

RESEARCH SAFETY

Support Caltech researchers for safe laboratory practices and procedures

ENVIRONMENTAL PROGRAMS

Safe and compliant management of hazardous waste and emissions

OCCUPATIONAL SAFETY

Ensure all employees are safe on campus and on the job

safety.caltech.edu

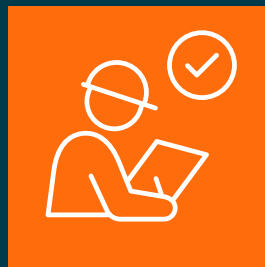

HOW DO WE DO IT?

Injury and Illness Prevention Program

Dedicated Training

General and specific safety related training, customized and tailored

Safety Inspections

Regular review and elimination of potential hazards in the workplace

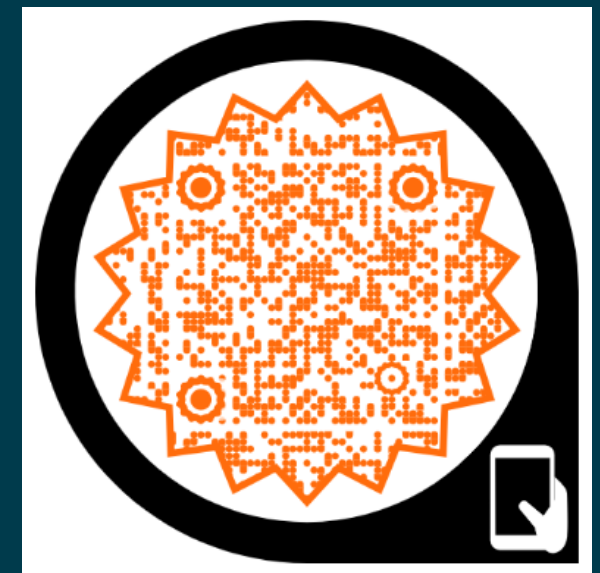

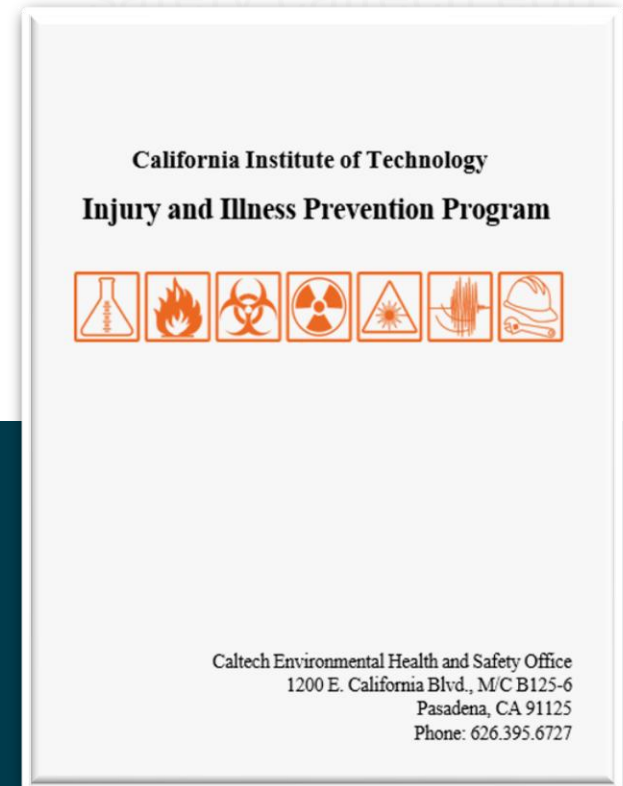

Incident Response

Immediate intervention to prevent continuous hazards and environmental release

Incident Investigation

Review of incidents and near-miss to uncover root cause and share lessons learned

**Caltech EH&S
for You**

WHAT DOES TRAINING LOOK LIKE?

Effective Training

Effective training is structured to ensure that employees operate in the safest environment while carrying out their tasks. It aims to minimize identified occupational risks and ensures that the Institute remains compliant with all relevant regulatory requirements.

ONLINE	IN PERSON	ON THE GO
MyLearn course modules	Scheduled or On-demand	Meetings, Job walks, Lab inspections, Incident reviews, are all training opportunities

The EH&S Office provides general and specific safety related training to the Institute faculty, staff, researchers, and students. All topics can be customized, and each of the trainings can be tailored to the needs of a division, department, office, or lab.

INCIDENT MANAGEMENT

Call x5000 for any injuries or incidents

WHAT DO INCIDENT INVESTIGATIONS LOOK LIKE?

The Process:

1. What happened?

Review of event, circumstances and surrounding conditions

2. How do we prevent it from happening again?

Analysis of Root Cause and Identification of Corrective Actions

In the event of an incident, EH&S will carry out an investigation that focuses on the circumstances and contributing factors, with the goal of preventing recurrence rather than assigning blame.

WHERE DOES EH&S KEEP RECORDS?

EH&S Management Tool

Available to the campus community via access.caltech.edu, this online recording platform tracks safety incidents, inspections, corrective actions, and creates actionable metrics.

Scan this QRC if you would like to report any safety issues or concerns

HOW DO YOU CONTACT US?

safety@caltech.edu | safety.training@caltech.edu
safety.caltech.edu | (626) 395-6727

The responsibility for implementing and maintaining a safe work environment rests with all employees at Caltech

WHO DO I TALK TO?

Always talk to your Supervisor about your day-to-day tasks, new tasks, new hazards, and required training.

WHERE DO I FIND INFORMATION?

All EH&S Programs are published on the EH&S website:

Communication is key, just ask us!
